

SEAN ALEXANDER

Candidate for City Council • City of North Vancouver

"Your Voice, Our City, No More Surprises"

Why I am running: I have a deep passion for grassroots politics and a profound commitment to serve the people who call North Vancouver home. I am proud to be Canadian, proud to be British Columbian, and most of all, I love being a North Vancouverite. This community gave me a home, and serving it is where my heart is.

In the 2022 municipal election, **less than 23% of our citizens turned out to vote**. That isn't just apathy—it is a clear sign that thousands feel their voices do not matter at City Hall. This campaign is about bringing people together, restoring accountability, and ensuring no neighbour is left behind.

1. Smart Development

I am not anti-development, but we must protect the character and people that make North Vancouver home. Working together, we can ensure growth benefits everyone without pricing out long-term residents.

- **Protecting Renters:** Work collaboratively on solutions so long-term tenants aren't displaced during redevelopment.
- **Community Infrastructure:** Partner with builders to address daycare capacity, transit access, and local traffic as our city grows.
- **Livable Growth:** Keep housing options viable for working families, seniors, and frontline staff.

2. Fiscal Responsibility

Taxpayers deserve absolute confidence that public dollars are spent wisely and transparently. From regional infrastructure overruns—like the \$3.86-billion wastewater treatment plant—to local projects:

- Strict Council oversight on major costs.
- Maintain strong, directly managed public services without giving blank cheques to unmonitored contractors.

3. Direct Access & Resident Priorities

Rebuilding trust starts with listening to real door-to-door resident priorities:

39%
Traffic Volume Concerns

17%
Traffic Calming

11%
Cost Fairness / Wastewater

 **Citizens Action Line: 236-889-3500 (48-hr response guaranteed)**

Joining Together on October 17th, 2026

Fostering real change requires all of us to take the time and energy to show up. I am here to work tirelessly alongside the Mayor and Council to fight for your priorities, ensure complete transparency, and restore real communication at City Hall.
